

**Item P16-0194**

**CleanCap™**

CleanCap is a dust containment cover made from FDA approved industrial grade fire retardant polymer resins. Used at major hospitals in NYC, CleanCap is expandable and capable of covering mini-containers (regardless of height), linen carts, canvas hampers, gang boxes, A-Frames, and material entering or exiting the work area. CleanCap is a safe and easy way to ensure effective dust and debris containment. Includes 40 caps and 20 securing bands.
