

Item P14-1748

Colony Economy Scaffolding

Designed to roll through standard commercial doors without the need to dismantle them. This narrow-width feature also allows Colony Scaffolds to roll down narrow hallways and set up in confined work spaces. The unique truss and positive engagement locking system allows them to be erected on stairways and span over large objects on the floor. Platforms made from 3/4" plywood with a steel frame, and adjusts in 2" increments. Adjustable in 2" increments from 2' to 6'. Casters are 5" double locking. The steel has a powder coated yellow painted finish. Unit is easily set up by one person. Meets or exceeds OSHA and ANSI standards. Load capacity: 1,000 lbs. **Item shown with optional accessories.**

Complete Unit Consists of:

14-1748 (1) Base Unit Only (6' H x 6' L Rolling Scaffold)

14-1749 (1) 6' Guardrail Kit

14-1753 (1) Upper Deck Unit

14-1754 (1) Outrigger set with four casters
