

Item P26-0124

Dap Plastic Wood

A high quality, latex-based wood filler is ideal for repairing cracks, gouges, holes and other surface defects on furniture, woodwork, molding, cabinets, paneling, plywood, windows, doors and even painted surfaces. Looks and acts like real wood, providing a repair that is 3X stronger than wood. Easy to use, filler can be troweled and molded for structural repairs. It dries fast and hard to a smooth finish that can be sanded, cut, planed, drilled, nailed, and provides strong nail and screw anchoring. Easy clean-up with water.
