

Item P10-0599

Field Station

A weatherproof, secure job box that's ready for the toughest worksite conditions with an internal capacity of 121 cu ft and features a large upper compartment and two shelved lower compartments. The Watchman® IV recessed lock housing protects contents against theft. Recessed handles also prevent damage in transit and make this unit easier to fit through tight spaces. This rolling storage box keeps contents dry and protected even during heavy rain thanks to the full, oversized gutter system and automotive-grade weather stripping.
