

Item P12-3013

GFCI Power Boxes

These high quality portable Power Boxes have been engineered utilizing the latest in GFCI technology, providing the user with the highest level of electrical safety. These power distribution centers are protected by a GFCI module giving the user open neutral and reverse phasing protection. They are UL® listed for outdoor use (UL® 1640 compliant) and designed to stand up to the toughest of jobsite conditions. Each unit has been carefully assembled to provide the ultimate in electrical safety as well as meeting current OSHA standards. GFCI's provide open neutral and reverse phasing protection. "Power On" indicator lights on GFCI's. 220V High Voltage Shut-Off with indicator light. Includes 1 - 50 AMP 125/250 Volt feed through receptacle, 1 - 30 Amp 250 Volt non-GFCI receptacle, and 6 - 20 Amp 125 Volt GFCI individually protected receptacles. Weight: 29 lbs. Dimensions: 14.5" (W) x 21" (L) x 11" (H). Two styles available. **Power cord purchased separately. See items 12-3014 (50') and 12-3016 (100').**
