

Item P11-9450

Greenlee G3 Tugger™ Cable Puller

Designed with a UL and cUL rated motor specifically designed for pulling cable, the G3 Tugger™ pulls 25% faster at high speeds and 20% larger continuous loads than any other light cable puller on the market today. No loose pieces; with no separate pins or adaptors to lose or misplace, the G3 comes to the jobsite ready to pull cable. Use for light cable installations, such as lower gauge electrical wiring and data/telecom cables. Portable with handle and wheels for increased mobility around jobsites. Adjustable clamp easily adjusts for different sizes of conduit. High speed pulls up to 1,000 lbs.

Specifications	
Application	Pull cable 4/0 to 1000 KCMIL cable
Capacity	Continuous rating 1200 lbs.
