

Item P14-0628

Guardian 20', 30' & 50' Halo Cable SRL Leading Edge

Halo SRL for Leading Edge (LE) is designed specifically for leading edge work. It includes an integrated shock-absorbing component that helps refocus forces away from the portion of the cable that comes into contact with the edge. While the ideal position for any attachment point is overhead, LE retractables play an important role in the construction industry because, frequently, the only viable attachment point is at foot level. 3/16" Galvanized cable SRL comes with shock pack, swivel top, snap hook, boot cover, and carabiner. Attach Halo LE SRL carabiner to selected anchorage connector, and attach steel snap hook to applicable harness D-ring. Maximum working load is 310 lbs. ANSI Z359.14-14 complaint.

Item	Description	Attributes
14-0628		Max Length: 20' Weight: 12 lbs.
14-0737		Max Length: 30' Weight: 13.8 lbs.
14-2190		Max Length: 50' Weight: 21 lbs.
