

Item P10-0295

Guardian Internal Shock Lanyard

Heavy-duty outer polyester webbing, with a polyester core specifically designed to reduce the impact forces resulting from a fall. Because the shock absorption is built directly into the lanyard there is no need for an external shock absorber, making the Internal Shock Lanyard a particularly lightweight option. This lanyard does not stretch, except if exposed to high levels of force. Steel rebar hooks.

Item	Description	Attributes
10-0295	6' Single Leg with Steel Rebar Hook	
14-1141	6' Single Leg with Steel Snap Hook
