

Item P14-2826

Guardian Retractable Horizontal Lifeline

Retractable Horizontal Lifeline it combines the span flexibility of our synthetic-rope HLLs with the durability of our fixed-length cable HLL systems. The Retractable Horizontal Lifeline features an integrated shock absorber and can accommodate up to **two workers** in fall arrest. The ergonomic carry handle and spool release make paying out the lifeline easy and snag-free, and the permanently mounted retraction handle stays out of your way until you need it. Its unique unidirectional design prevents unwanted spinning during payout, and has a ¼" hex shaft that accommodates a cordless drill for ultra-fast retraction if desired.
