

Item P16-0220

Hand Chain Hoist

The light weight, compact design is an ideal choice for low head room applications. Feature a powder coated finish to protect against rust and corrosion, and the patented fused break discs are designed for low maintenance. The 360° swivel and cast safety latch design of the drop forged hooks are built for easy rigging, making it ideal for construction, and industrial applications. Slip clutch style overload protection that prevents lifting or pulling damaging loads beyond the rated capacity of the hoist and when triggered, the overload protection can be reset on site. Drive pinion supported on both ends with sealed ball bearings. Complies with OSHA, ANSI/ASME B30.16 and HST-2 standards.

Item	Description	Attributes
16-0220		Capacity (Tons): 1/2 Ton Lift: 10' Minimum Headroom: 11 1/4"
16-0258		Capacity (Tons): 2 Lift: 20' Minimum Headroom: 14-3/4"
16-0229		Capacity (Tons): 1 Ton Lift: 20' Minimum Headroom: 11 5/8"
