

Item P16-0079

Harper Aluminum Hand Truck

Ultra-light weight, yet designed to withstand rugged working conditions. Harper's Ultra-light models are made of the highest quality extruded aluminum components insuring the highest strength, and longest life possible. Components are fastened with the finest stainless steel rivets available. Narrow design back frames for easier movement in tight quarters. Comes with 52" extension and stair glide.

Several other sizes and styles of frames, handles, base plates, wheels and accessories are available enabling you to construct a Harper Ultra-Lite truck to fit your specific needs. Your Colony representative can provide you with additional information and assistance.
