

Item P10-1630

ICS® 695XL Gas Powered Concrete Chainsaw

All the portability of a conventional gas Cutoff saw, with many superior features. Plunge cuts up to 16" deep. Cuts perfect corners without overcutting. Can also cut irregular shapes. Uses the same water lubrication system as the ICS® hydraulic saw, where water lubricates the cutting surface and all but eliminates airborne dust that is hazardous to people and machines alike. Virtually no set up time; hook up water and cut. Use only GC Series chain by ICS® for best results. **Please Note: Does not include bar or chain. Bar and chain must be ordered separately.**

Specifications	
Engine displacement	5.7 cu. in. (94 cc)
Cutting depth (maximum)	16"
Fuel mix ratio	50:1 gasoline to oil
Powerhead Dimensions	18" L x 14" H x 12" W
