Item P16-7017

Low Profile Ram

This heavy duty spring return ram is designed for tight-spot lifting, where clearance is limited. Couplers are angled upward for extra clearance. 10 ton model has swivel caps on the rod end of the pistons to eliminate the problem of uneven surface loading. Maximum tilt is 5 degrees. Ram bodies and gland nuts are manufactured with a special corrosion and abrasion resistant finish. **Other Sizes Available. Call for a Complete Listing**
