

**Item P10-2925**

**M.K. Morse HAVOC Demolition**

Designed for "roughing in" applications. .062" thickness provides rigidity for more stable cutting in wider cuts. Tapered blade body best for plunge cutting. Straight tooth pitch for fast cutting. Bi-metal construction for long cutting life and heat and wear resistant. Applications: general demolition, wood, nail-embedded wood, roofs, walls, metal studs, wallboards, plaster, and lath. 3 per pack.
