

Item P10-2480

Metabo Tuck-Pointing Diamond Cutting System

Quick wheel change system eliminates the need for spanner wrench. Winding protection grid protects motor from harmful debris. Metabo's safety clutch protects operator from kickback. Dust Director tuck pointing guard accepts 4", 4-1/2", 5" and 6" diamond blades. Swivels when approaching inside corner. Not for use with Type 1 or Type 27 bonded abrasives. Includes: side handle, wheel guard, inner flange, and outer nut
