

Item P10-3248

Milwaukee Heavy Duty Jig Saw

Uses T-Shank style jigsaw blades, with Quik-Lok blade change system. Features a 6.5 amp, variable speed trigger control motor (0-3,000 strokes per minutes). LED light illuminates cutting line for better visibility and safer cuts. 9 position dust blower clears away chips and debris. 4-position orbital selection lever executes both fast rips and precise cuts. Built in dust collection port allows attachment to vacuum. Heavy duty all metal gear case and die cast aluminum shoe for strength and durability. **Includes anti-splintering device, plastic shoe cover, two blades and carrying case.**
