Milwaukee M18™ Rocket Dual Pack Tower Light with One Key

The M18™ ROCKET™ Dual Pack Tower Light w/One Key can get light to any environment on any terrain with its 3 leg position options, whether you need quick deployment, or maximum stability, or need to get the light off the ground with its 7 second setup and 5'5" deployment height. It also offers maximum portability with its stowed 22" size perfect for carrying long distances to a scene. Its rotating light head offers 5400 lumens of high output light and can run up to 26 hours with its dual battery design giving users the ability to use one or two M18 batteries. (Battery sold separately)
