

Item P25-0339

Milwaukee SDS-Max Dust Extraction Attachment

SDS Max Dust Extraction Attachment provides users with a solution for the regulation on respirable crystalline silica dust (29 CFR 1926.1153). The SDS Max Dust Extraction Attachment is optimized for all drilling depths and any hole ranging from ¼" and 2-3/4" in diameter. Its removable brush rings allows for increased tool life when performing larger dry coring applications. Attach to the Milwaukee (25-0282) 8 Gallon Dust Extractor for a complete OSHA Table 1 compliant solution.
