

Item P10-1017

Milwaukee Super-Hawg® Drill

The ultimate tool for power and torque. The Super-Hawg® has the highest amp rating (13 amps) and greatest power to weight ratio compared to any tool in its class. With the motor also having two speeds, you can use this drill with a wide variety of bits and sizes. The motor is also reversible and has a low speed clutch both for safety and prolonging tool life. Its unique handle rotates to the right or to the left for the most comfortable grip position, particularly when drilling in tight or unusual locations. No Load RPM: 1,750/450. Weight: 14.7 lbs. Length: 22".
