**Milwaukee USB Rechargeable Green 3-Point Laser**

Milwaukee USB Rechargeable Green 3 Point Laser is powered by REDLITHIUM™ USB, delivering you all-day runtime and uncompromised visibility. The high-intensity laser beams allow the green points to be visible up to 150' for fast, accurate point transfer. The Integrated Adjustable Clearance Bracket enables this 3-point laser level to easily fit over steel stud track or create clearance for marking the floor. This green laser level features amplified rare earth magnets, providing a strong hold onto metal surfaces. The integrated screw and nail hang holes allow easy and efficient setup in any environment. **Kit includes: USB Rechargeable Green 3-Point Laser (3510-21, REDLITHIUM® USB 3.0AH battery, 2' heavy duty cable, 2.1A wall plug, and carrying case.**
