**Item P19-1235**

**Mongoose Dry Diamond Core Bits**

**Drills concrete, reinforced concrete, brick, bluestone and limestone. Absolutely dry-no water needed!** (Mongoose bits can be used wet or dry.) **Drills up to 10" deep** using a standard electric drill. No set up time. Plug in your drill and go to work. No need to use an expensive core rig; Mongoose bits are designed to be used with the Mongoose Core Drilling Machine described below, or hammer drills with an optimum running range of **1,500 to 2,000 rpm**. Requires use of a spring loaded center pin and shank, which are interchangeable between bits. **Mongoose Bits are sold as "set" which includes the bit, center pin, and hex shank.**

**Please Note: Do not use Mongoose Bits in hammer mode; designed to be used in drill mode only.**

Item	Description	Attributes
