

Item P19-1068

Powerblanket® Multi-Duty Thawing and Curing

Multi-Duty series blankets are versatile enough to be used to cure concrete and / or thaw ground (***Contingent upon ambient temperature***). Melts snow/ice up to 1' overnight. Preps cold weather construction sites. Convenient 10' x 10' size excellent for covering sand piles, walls, equipment. It is an excellent alternative to expensive and labor intensive ground heater systems. Excellent for masons to drape over and heat walls, eliminating the use of propane / open flame heaters.
