

Item P99-8996

Push-In Coupler

Push-In Thread Couplers have one end that does not require turning threaded rod elements for placement during installation. These high performance couplings can be ideal for applications such as mounting prefabricated hardware and hanger assemblies.

Item	Description	Attributes
99-8996		Thread: Single Rod Dia.: 3/8" Std. Box: 20
99-8997		Thread: Single Rod Dia.: 1/2" Std. Box: 20
