

**Item P90-4000**

**Relton Rebar Cutters**

For drilling through concrete embedded rebar quickly. Carbide-tipped rotary bit fits into a standard 1/2" drill motor. This bit is used once the rebar is encountered and should be used only for drilling through the embedded rebar. **The bit is NOT to be used for percussion drilling.**

Item	Description	Attributes
90-4000		Diameter: 1/2" Length: 12"
90-4002		Diameter: 9/16" Length: 12"
90-4004		Diameter: 5/8" Length: 12"
90-4006		Diameter: 11/16" Length: 12"
90-4008		Diameter: 3/4" Length: 12"
10-3434*		Diameter: 7/8" Length: 12"
10-3436*		Diameter: 1" Length: 12"
10-3433		Diameter: 7/8" Length: Cutter Head Only
10-3435		Diameter: 1" Length: Cutter Head Only
90-4030		Diameter: 1-1/8" Length: Cutter Head Only
90-4031		Diameter: 1-1/4" Length: Cutter Head Only
90-4032		Diameter: 1-1/2" Length: Cutter Head Only
10-3441		Length: 1/2" x 12" Threaded Shank
10-3439		Length: 1/2" x 18" Threaded Shank
90-4033		Length: SDS+12"
90-4034		Length: SDS+ 18"

\*with removable shank
