

Item P11-6222

Ridgid Hinged Pipe Cutters

Hinged Pipe Cutters are designed for rapid cutting through cast iron and steel pipe. Each model features rugged cast iron frame, long feed handle for better leverage, pipe guides for square cuts, closed frame design with easy operating latch for quick and positive engagement on pipe, four cutter wheels and a pipe handle for applications requiring extra leverage. Additional cutter wheels for cutting cast iron, standard steel pipe and heavy-wall steel pipe are available separately.
