

Item P13-0474

Safety Whip-Check Cables

These strong steel cables prevent hose whip in case of accidental separation of coupling or clamp device, preventing accidents and injury. Whip-Check reaches across the hose fittings to provide stand-by safety for hose. Spring loaded loops in the cable ends open easily to pass over the couplings for a firm grip on the hose. Highly resistant to rust and corrosion. Whip-Check cables should be installed in the extended position with no slack. Working pressure: 200 PSI. Two styles available.

Item	Description	Attributes
13-0471	Hose-to-Tool Service	Hose I.D.: 1/2"-1-1/4" Length: 20 1/4"
13-0473	Hose-to-Hose Service	Hose I.D.: 1-1/2"-3" Length: 38"
13-0474	Hose-to-Hose Service	Hose I.D.: 1/2"-1-1/4" Length: 20 1/4"
