

Item P62-1000

SawStop 10" Contractor Saw

SawStop® table saws set the standard for table saw safety. The SawStop safety system includes an electronic detection system that detects when a person contacts the blade. The electrical signal that is sent to the blade reacts to the electrical capacitance and conductivity of the human body. A fast-acting brake stops the blade when contact is detected. When the power goes out, the saw stays off. The safety system won't allow the motor to restart automatically when the power comes back on. Shrouded blade with 4" port for direct connection to a collection system helps control dust. Other features of this saw enhance its convenience, durability, and fit and finish.

Model #	CNS175-SFA30
Specifications	
Motor	1.75 HP, 110-120V, 15A
Footprint	25 3/4" w, 27" d
Cast Iron Table	20" w, 27" d
Extension wing	12" w, 27" d
Blade	10" Diameter 5/8" Arbor
Blade tilt	Left
Maximum depth of cut	3 1/8"
Dado diameter	8"
Dado max. width	13/16"
Dimensions	58 1/2" W, 40" D, 34 3/4" H
Shipping weight(approx.)	280 lbs.

Item	Description	Attributes
