

Item P62-1016
SawStop Jobsite Saw

The SawStop Jobsite Saw unites SawStop safety and pioneering innovation with compact portability. Easy setup and mobility; simple, intuitive action extends the cart for use and collapses the cart for transport. One turn elevation raises and lowers the blade in just one turn of the handwheel. Active dust collection blade guard captures above table dust, helping to ensure a safer and cleaner workspace. Quicktilt allows the user to tilt the blade easily and quickly to ideal angle in 1-degree increments. **Includes: collapsible rolling cart, high/low t-style fence w/ergolock, miter gauge, JSS micro blade guard, riving knife, blade wrenches, push stick, 10" blade, standard brake cartridge, 3mm hex key, 4mm hex key and 5mm hex key.**

Specifications	
Motor	120 VAC 60 Hz, Univ
