Akro-Mils Shelf Bins

An economical way to store parts and components. Bins are made of durable polypropylene for use on 12" and 18" deep shelving. (Bins for 24" deep shelving are also available). Special built in hang-lock catches the underside of the shelf above, allowing each bin to be tilted out for complete access. Edges are reinforced for additional strength. **Stock color is blue.** (Red and Yellow are also available.)
