

Item P26-0344

SikaBit® S-60

SikaBit® S-60 is a proprietary composite, uniquely designed to provide high strength, low temperature adhesion and high temperature stability in a superior waterproofing membrane. A tough cross-laminated film forms a resilient barrier against physical damage and water migration. It is a cold applied system requiring no heat or special equipment to install. 3' x 6.77' roll (200 sq ft).
