

Item P13-0320

Site Drainer Pit Boss - Tethered Float

Pit Boss Tethered submersible pump is built with an external adjustable float. Works vertically or horizontally and keeps working no matter how debris filled the water gets. Portable and lightweight but designed for tough environments and can suck water out of the most debris filled environment. 83 Gallons Per Minute with 5' lift and maximum Head of 49'. It comes with 33' power cord, runs off 110-Volts, draws 10.7 Amps, and has 2" NPT male discharge flange to accommodate lay flat hoses. The external float can be adjusted to automatically turn the pump on and off at various heights. Portable and lightweight yet rugged enough for the toughest jobs.
