

Item P16-7000

Spring Return Rams

These heavy duty rams have a solid bronze bearing to reduce scoring caused by off center loads. The return spring has more coils for faster return and longer life. A chrome plated piston rod resists wear and corrosion. Each ram is equipped with a model 9796 quick coupler. These "C" series rams are designed for use at working pressures up to 10,000 p.s.i. **Several other sizes of "C" series rams are available. Call for a complete listing.**

Item	Description	Attributes
16-7000		Model: C102C Retracted Hgt.: 4 3/4" Stroke: 2 1/8" Tons: 10
