

Item P13-0179

Sumner® Series 2100 Contractor Lifts

Series 2100 portable lightweight yet heavy duty contractors lift. Built for moving heavy materials such as steel beams. Set up is fast and easy with no tools or loose hardware to worry about. Has reversible forks for easy repositioning, lockable 5" casters in front and 10" rough terrain wheels in rear for easy loading. Unit has an inside-mast cable, avoiding any exposed cable near the operator's face. Built-in single speed winch uses idler roller to feed cable evenly on the drum to avoid cable flats. Unique mast hold down bar holds carriage and mast during transportation.
