Item P31-0030

Superchute® Wraparound® System

This patented system can be "unwrapped" and laid flat, making this system easier to transport and store. Takes one minute to assemble and disassemble. Fully compatible with Superchute® Welded sections and top hoppers and doors. For roofers, two Wraparound chutes can be joined together to make a double diameter oversized chute! (For example, join two 30" diameter Wraparound chutes to make a 60" diameter chute.) Available in six different diameters and three thicknesses. All sections are 4' tall.

Item	Description	Attributes
31-0030		Diameter: 30" Wall Thickness: 3/16" Recommended Application: Roofing & general renovation Weight: 39 lbs.

*Other diameters available. Call your Colony Representative.
