Item P14-2776

Traverse™ Industrial Climbing Helmet with Mips® Technology

Ultra lightweight shell made with ABS material provides superior protection. Mips® (Multi-directional Impact Protection System) is a low frictional layer designed to reduce rotational motion transferred to the head from angled impacts. EPS foam impact liner helps absorb the forces of front, side, or rear impacts. Includes a 4-point cross-over chin strap with quick release buckle that is adjustable for a safe and secure fit. Rugged non-slip adjustable SURE-LOCK wheel ratchet ensures proper suspension performance and effortless fit for all head sizes. Inner suspension includes comfortable padding for above the brow line. **Available in vented and nonvented.**

Item	Description	Attributes
