

Item P14-0486

Treds Slush Boots

Our strongest, most comfortable slush boot. Made of latex natural rubber. Treds offer numerous advantages over the traditional "yellow" slush boot. The stretchy, smooth, drag-free surface makes Treds easy to pull on and off. Snug-fitting and light-weight. Treds fit either foot, so you'll never have to throw a pair of boots away if one is damaged. With 4000 lbs. of tensile strength, they are almost impossible to puncture or tear. And since concrete cannot adhere to the latex rubber, Treds can be cleaned both inside and out. 17" long, with adjustable snap closures. Color: Black. Sold by the pair.
