Item P12-1462

Tsurumi Electric Submersible Pump

Slimline design allows unit to fit into 8" pipes. Powerful pump built with durable materials in an easy handling design. Top discharge provides maximum motor cooling efficiency allowing continuous duty operation at low levels and extended dry-run capability. Circle Thermal motor protector protects against overheating over amperage and run-dry. Anti-wicking block prevents water incursion due to capillary wicking, should the power cable be damaged or the end submerged. High chrome iron semi-open impeller. Resists wear from abrasive particles. Synthetic rubber pump casting for wear resistance and easy maintenance.
