

Item P26-0170

Universal Fireproofing Patch

The first and only fire resistive material designed exclusively for the fast and simple repair of existing fireproofing. Just add water and mix. Each 25 lb. bucket contains enough material for 25 patches of 8.5" x 11" @ 1/2". UFP has been fully vetted by VTEC and certified by Intertek Laboratories as a trowel applied patch and is also Classified by UL as a Spray-applied Fire Resistive Material. UFP - the way to go when you don't know.
