

Item P14-8077

Werner 8' Bantam Twinleg Leading Edge Self Retracting Lifeline

Werner 8ft Bantam Twinleg Leading Edge Self Retracting Lifeline is approved for use in leading edge applications. Lightweight and compact design has 8 feet of 316 inch galvanized steel cable, a thermoplastic housing, and backpack style energy absorber. The steel harness web connector allows for quick and easy attachment. As an ANSI Class A device, the Bantam is ideal for low clearance applications when attached overhead.
