

Item P14-9891
Werner LITEFIT™ Standard Harness

Good quality, cost-effective harness that is designed to assure safety and compliance on the jobsite. Made of polyester webbing with a mating buckle chest, shoulder and leg straps. FlexiblBuilt in Relief Handles provide immediate relief after a fall arrest allowing you to reach a gravity override seated position. Multiple impact indicators make inspection easier. Sliding back D-ring for adjustability. Slotted pass through buckles on the chest strap fastens without twisting. Tongue buckle leg straps are ideal when multiple workers use the same harness. 5-point adjustments for optimal fit. Meets ANSI z359.11 Standard for Full Body Harnesses.
