

Item P14-8094
Werner Steel 6' Baker Rolling Scaffold Complete

The locking casters swivel for convenient 360-degree mobility. Unique design protects the locking pins to prevent accidental unlocking or release. Deck pins secure plywood to scaffold frame. Platform height is adjustable in 2 inch increments for unique working heights and uneven surfaces such as a stairwell. Sections stack easily when casters are removed (2 section maximum). Easy one-person assembly. 1000lb load capacity.
