

Item P21-0201

Caddy 2 in 1 Strut Clamp

Unique, easy to use strut clamp eliminates mismatching halves, thereby saving valuable time. Simply break the clamp in half and install with a screwdriver or nutdriver. No loose parts to drop or lose because the bolt is retained. Works with most brands of strut. Bright zinc finish. Also available in Stainless Steel or Aluminum.

Other sizes available up to 4".

Steel Specifications— Standard material finish is zinc-electroplated steel, conforming to ASTM B633-78.
